New Goods

AT PORTER.
HEBARD & WALKER.
ARE receiving direct from the Importers and Manufacturers a large and splendid assortment of Goods of all descriptions, suitable for the season, which they offer to the citizens of Porter and vicinity, at prices unusually low. The articles they keep for sale are the "first water," and no mistake, and will be sold for a very small advance on cost, for CASH or its equivalent only. We would respectfully say to the public that we intend to sell at moderate profits than the same quality of goods have ever before been sold in Porter. The nimble "whisperer" we are after, not the sluggish dollar, for the "whisperer" in hand will do us more good than the dollar on the shelves or in the clutches of a miser.

CHEAP CASTINGS!

THE old Gallipolis Foundry still continues to manufacture castings of all kinds, such as Plows, Plow Points, Land Sides, Hollow ware, Odd Lids, Stoves, Grates, Grate Bars, Wagon boxes, Andirons, Mill Irons, &c., &c. We have also a large assortment of Patterns for machinery and other kinds of castings, to which we are making constant additions, and having lately made great improvement in our Patterns and mode of work, we now manufacture castings of a superior quality, and are prepared to do all kinds of work at short notice, and of the best Iron. We would especially invite the attention of Farmers to our stock of Plows and Plow points, of which we have a large assortment; and notwithstanding the great rise in the price of Iron, we sell most of our ware by wholesale or retail at the same old prices, and cheaper than any brought to Gallipolis. Old metal taken in exchange for new.

MRS. E. KIDDER'S Cholera, Dysentery and Diarrhea Cordial.

An Immediate and Perfect Remedy for Cholera, Dysentery, Sea-Sickness, Diarrhea, &c., &c.

WHERE this all powerful antidote is at hand, Cholera is no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours, if taken at the commencement.

It has been tested by the public for more than seven years, and was the first article made known to the public as an

Immediate and Perfect Cure of the CHOLERA.

It has been thoroughly tested in every country and every climate, and its effect has everywhere proved the same; it cures even where the disease has advanced to its last stages.

Accounts almost daily reach us of the ravages of the cholera, both at home and abroad, and of the little success which has thus far attended the attempts to check its frightful inroads on human life.

Such being the fact, it surely may be regarded as an era in modern discoveries, that a medicine has been discovered possessing the power of checking the progress of the cholera, and eradicating it from the system.

Mrs. Kidder would most respectfully call the attention of the public to this invaluable medicine, known as

"Cholera, Dysentery and Diarrhea Cordial."

Many thousands have been saved by this medicine, when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the cordial at hand, and, if timely administered, but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhea.

This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhea, and restores the bowels to a perfectly regular and healthy state, however severe the attack may be, or however low the patient may have become, it invariably restores.

The Severe Cases of Dysentery are immediately counteracted, the pains are allayed, the bowels healed, and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhea, Either in children or adults, of months or years continuance, is most readily cured with this cordial, notwithstanding the fact that the bowels are so weak, it immediately strengthens and shortly restores them to perfect health.

Cholera Infantum. It has saved the lives of many thousands of children when reduced to death's door by this complaint—it gives them immediate relief, and they very soon recover.

Sea Sickness. It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and restores the patient. It invariably checks vomiting, produced from any cause whatever.

Children that are Teething. If inclined to diarrhea, should always be provided with this medicine, as it will keep the bowels regulated, and keep off the canker. It is wholesome, safe and pleasant to the taste; and children are fond of it, and will take it without trouble or dislike.

For General Debility and Dyspepsia, it is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or distressing the stomach.

MRS. E. KIDDER, 100 Court street, Boston, Who is the inventor and sole proprietor. Sold in bottles, holding nearly a pint, for FIFTY CENTS.
